

Cornerstone Commissioning, Inc. – Commissioning / Mechanical Engineers

Establishing a Foundation for Performance

Cornerstone Commissioning, Inc. is a commissioning service provider with a strong national reputation in laboratory, vivarium and bio-containment facilities. We have rewarding opportunities available for Mechanical Engineers with a minimum of 10 years of construction project experience with MEP and building automation system operation. Hands-on commissioning and start-up experience is preferred. A four year engineering degree or equivalent is required. In this role, you will work closely with clients during design, construction and acceptance phases, focusing on facility operation, functionality and performance.

Compensation is competitive and includes healthcare benefits, a retirement account, an incentive program and a minimum of two weeks of training per year.

What types of people does Cornerstone employ?

- Team-oriented people with a strong work ethic
- Self-directed, not requiring substantial oversight
- Technical expertise and attention to detail
- Strong oral and written communication skills
